

The wisconsin "No-Call" law is the very best in the nation. It was developed for wisconsin citizen's by wisconsin citizens and should be left alone. Please remember what this country was founded on, Big Federal Government Bad, State Government Good, Local Government Best. This is a local situation and should remain as one. I ask you keep the wisconsin law in tact not only as a citizen but as a business owner in the Real Estate business.

Thanks,
Mark Nordigian
